Michael Lamb called the meeting to order. He thanked members for coming, despite the rain.

Lamb reminded the group that he had shown two calendar options at the previous meeting for members to look over then go back and discuss with their campus and/or community groups. He reminded them that the first calendar was more of a traditional option and the second calendar would have staff and students starting earlier than usual but allows for everyone to be done before Memorial Day. Lamb asked for a show of hands regarding which calendar option the members were voting for. He then explained that after further discussion with administrators and gathering of more information, it had been discovered that the second calendar option will not work well. This is due, in part, to the State testing calendar and starting a 9-weeks grading period.

Lamb next discussed the 9-weeks grading period. He asked members how they felt about using this system. There appeared to be a consensus that it would work well for all. Following further discussion, Lamb noted that the first calendar option will be presented to the school board for approval at the next regular meeting. (Copy of proposed calendar attached to these minutes) He then asked for any further comments or questions. There were none. Lamb thanked members again for their attendance and input and the meeting was adjourned.
